

# FIBER ARMCHAIR - FRONT UPH. SWIVEL BASE

FURNITURE / LIGHTING / ACCESSORIES

# PRODUCT FACT SHEET

**ISKOS BERLIN ON THE DESIGN** "One of the most difficult and noble disciplines is to design without eccentricity. To create simple, well-functioning, almost ordinary objects that nevertheless have strong identities. We designed FIBER CHAIR to do just that with a clear sculptural language that refuses to compromise on comfort. It's a chair stripped of all unnecessary layers. The iconic form marries soft, embracing curves with an environmentally friendly wood fiber composite, giving FIBER CHAIR a distinctive tactile texture while also keeping it 100% recyclable."

## PROCESS

The wood fiber and plastic blend is injected into the mold, forming the chair's shell. The shell's inside is then upholstered with foam and fabric. The fabric is glued to the shell's surfaces and stapled using a pipe on the edges. Swivel piece is die casted aluminum. Swivel foot is casted in one piece.

## DESIGNED BY / YEAR OF DESIGN

Iskos-Berlin / 2016

## DESCRIPTION

Fiber Chair is an all-round easily understandable chair, made of a new innovative shell material of recyclable plastic and wood fibers. With an eye for detail, every line and every curve has been relentlessly altered to balance maximum comfort with minimum space. As the chair is made from natural materials, small variations in color and structure can occur.

## MATERIAL

Shell consists of a wood and plastic composition with up to 25% wood fibers. Swivel base in aluminum. The Fiber Chair family is partly made from a natural material - variations in color can occur.

Textiles from Kvadrat. Other textiles available upon request.

## CLEANING INSTRUCTIONS

Remove non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean warm water. If necessary, clean by dabbing with soapy water. Finally, dab the surface with clean water. See kvadrat.dk for further cleaning and maintenance instructions for your chosen textile.

## TESTS AND CERTIFICATIONS

Danish Technological Institute - EN 15373 L2. Tested to withstand level 2: Extreme use. Tested to withstand use in areas where the furniture is occasionally or repeatedly subject to extremely high loads i.e. nightclubs, railway stations, transport terminals.

## ABOUT THE DESIGNER

Iskos-Berlin is a Copenhagen-based design duo that has made international headlines within furniture, industrial and graphic design. The studio, formerly known as Komplot Design has collaborated with some of the World's most prestigious manufacturers and their furniture, lighting and other design products are exhibited at numerous design museums around the world including MoMA and the Danish Design Museum.
