

MOBIL 70 PENDANT —
BY MONIKA MULDER 2016

#510138 #510134 #510135

Mobil 70 is build up by three equal parts linked to each other. Together they create a pendant lamp with graphic qualities and movement that looks interesting from all angles.

ABOUT

“Give me a lamp that will look great on a New York loft”. With those words I started to work with the series Mobil for PHOLC.

Thinking of the typical New York balcony racks in black metal and the round streetlights on Brooklyn Bridge. Those ingredients resulted into a pendant lamp where 3 equal parts are linked on each other. Turning each part makes it look like a mobile. The wall lamp and table lamp in the same collection are minimalistic.
